

Weekly Task	Classification	Rationale
Attend lectures and take notes	Collaborate with AI	AI can help organize and summarize my notes, but I need to understand the material myself.
Complete programming assignments	Collaborate with AI	AI can explain concepts and suggest code, but I write, test, and verify the final solution.
Debug Python or Java code	Delegate to AI with review	AI often identifies bugs quickly, but I must verify every fix before submitting.
Summarize research papers	Delegate to AI with review	AI saves time by producing summaries, but I check that no important details are missing.
Study for quizzes and exams	Collaborate with AI	AI creates practice questions and explanations, while I do the actual studying.
Write assignment reports	Delegate to AI with review	AI helps generate a first draft, which I revise for accuracy and my own writing style.
Create PowerPoint presentations	Collaborate with AI	AI suggests outlines and visuals, while I customize the final presentation.
Respond to routine emails	Fully automate	AI can draft polite replies for simple messages, requiring only a quick review.
Plan my weekly schedule	Delegate to AI with review	AI organizes my tasks, but I decide the final priorities.
Brainstorm final-year project ideas	Collaborate with AI	AI provides ideas and alternatives, but I choose the direction.
Submit assignments to the university portal	Just Me	I am responsible for submitting the correct files before the deadline.
Take exams and quizzes	Just Me	Academic integrity requires me to complete assessments without AI assistance.

Three Target Tasks

1. Programming Assignment Development

Done well means:

- Complete the first draft within 2 hours.
 - Code runs without errors.
 - Less than three bugs found during testing.
 - I understand every line before submission.
-

2. Summarizing Lecture Notes

Done well means:

- Summary fits on one page.
 - Includes all key concepts.
 - Completed within 20 minutes after class.
 - Easy to review before exams.
-

3. Writing Assignment Reports

Done well means:

- First draft completed in under 45 minutes.
- No major grammar mistakes.
- Proper citations included.
- Requires only one round of editing before submission.
